PROFILE SUMMARY

I am a UI/UX Designer with a strong frontend development background, experienced in designing user-centered digital products using Figma. I focus on creating intuitive, visually appealing interfaces backed by usability principles and real-world implementation experience.

EDUCATION

Universitas Terbuka *Nov 2026 – Present (Transfer Student)*

Bachelor of Information Systems – Faculty of Technology and Design

Universitas Bunda Mulia *Aug 2022 – Present (Previous Institution)*

Bachelor of Information Systems – Faculty of Technology and Design

- Relevant Coursework: Web Programming, UI/UX Design, Algorithms & Data Structures, Database Systems, and Object-Oriented Programming

Enigma Camp *Apr 2025 – May 2025*

React JS Bootcamp

- Intensive training covering HTML, CSS, JavaScript (ES6+), Git, and React.js fundamentals including component-based architecture and API integration.

PROFESSIONAL EXPERIENCE

NoLimit Indonesia – Bandung

Frontend Developer Intern *Jul 2026 – Oct 2026*

- Developed new features for web applications using React.js and TypeScript.
- Fixed frontend bugs to improve application stability and user experience.
- Integrated REST APIs using **Axios** and managed server state with TanStack Query (React Query).
- Built reusable and responsive UI components using Tailwind CSS

Self Employed – Tangerang

Freelance Frontend Developer *Oct 2024 – Present*

- Delivered 6+ web projects across healthcare, travel, and organizational platforms using React.js and modern frontend technologies.
- Designed and implemented responsive user interfaces based on user-centered design principles using Figma and modern frontend toolsTranslated Figma designs into reusable, scalable component-based architecture.
- Collaborated with backend systems to ensure seamless user experience in data-driven interfaces
- Collaborated directly with clients to gather requirements and deliver production-ready solutions.

Self Employed – Tangerang

Freelance GIS Mapper *Feb 2024 – Present*

- Processed and analyzed spatial datasets to produce 20+ custom maps supporting land-use and development planning.

- Transformed complex data into clear visual reports for clients while maintaining data accuracy and project deadlines

SELECTED PROJECT

RS. Surabaya Medical Service Website

Frontend Developer and Backend Developer *Dec 2025 – Jan 2026*

- Designed the UI/UX in Figma, building structured layouts and interactive prototype elements to better visualize user experience.
- Built reusable and responsive frontend components using React.js and Tailwind CSS based on the design system.
- Implemented a doctor search and filtering feature with debounced input handling to optimize API requests and improve performance.
- Developed RESTful APIs using Laravel to manage doctor data and articles.

BEM FIA UB Profile Website

Frontend Developer *May 2025 – Jun 2025*

- Built an organizational website based on Figma designs using React.js and Tailwind CSS.
- Implemented reusable components to ensure scalable structure and maintainable codebase.
- Ensured responsive design across desktop and mobile devices.

Maraksara.id

Frontend Developer and Backend Developer *Jul 2025 – Aug 2025*

- Developed and published a web platform focused on introducing Batak script (Aksara Batak) through interactive and educational features.
- Built responsive user interfaces using React.js and Tailwind CSS.
- Implemented dynamic data fetching to display Aksara Batak content with pagination for structured browsing.
- Developed a quiz feature to enhance user interaction and learning experience.

SKILLS & CERTIFICATION

Skills:

- UI/UX: User Research (basic), Prototyping (Figma), User Flow
- Frontend**:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Axios, React Router.
- Backend: Laravel, RESTful API Development, MySQL.
- Tools: Git, GitHub, Figma, VS Code.
- Concepts: Auto Layout (Figma), Component System(Figma), Component-Based Architecture(ReactJS), API Integration, Responsive Design, Pagination.

Certifications:

- ReactJS Bootcamp by Enigmacamp
- Frontend Development Libraries by freeCodeCamp
- Legacy JavaScript Algorithms and Data Structures by freeCodeCamp
